(204) 466-3094

I/We, _____ declare that we agree to purchase a share in Stephenson's Arizona Edibles and we agree to the following conditions:

- + We understand that this is an investment in a Community-Shared Agriculture (CSA) garden.
- + We will accept that the weather is not a controllable factor in the garden, and as such the hard work put into the garden by the owners may be ruined by any severe weather, regardless of any and all precautions taken by the owners. We will not hold the owners responsible for a crop failure due to an Act of God.
- + We will accept that the actions of others may also contribute to any or all parts of a crop failure due to negligence on the part of the people living or operating in the area. We will not hold the owners of Stephenson's Arizona Edibles responsible in the event of a crop failure due to someone else's negligence (e.g. improperly-maintained crop-dusting equipment).
- + We agree to pay \$300.00 total for a share of Stephenson's Arizona Edibles garden for the growing season of 2009. We agree that the 60% down-payment (\$180.00) of the share will be paid up front and will be non-refundable. We agree to pay the balance of the share (\$120 over 12 weeks, for a \$10/week delivery fee) upon delivery of the produce. (We will accept checks with valid ID made payable to **Tom or Tracy Stephenson**).
- + We understand that the delivery fee will be waived for the week if there are no available vegetables or fruit.
- + We understand that the 5lb quote per week is an estimate and that box weight may vary depending on what is harvestable.
- + We will give at least 48 hours' notice in the event that we need to cancel or postpone a delivery and will do so only by **phone** (466-3094) **not by email**. We agree that if prior delivery arrangements are not made, our vegetables may be sold to someone else.
- + We agree that we will let Stephenson's Arizona Edibles know of any food allergies.
- + We agree to let Stephenson's Arizona Edibles know if there is a problem with the food, delivery service or anything else that may arise from this contract. Crop-sharing means communication, folks. Talk to us! You may even get a chance to come out and see where your food is coming from.
